## COLLEGE PREPARATORY SCHOOL

# We're Back

**Chaminade College Preparatory School** is excited to announce that we are opening in the Fall with in-person classes. Since April 1<sup>st</sup>, 2020 our Health and Safety Task Force has been hard at work designing a plan that will allow us to re-open and welcome students to campus. With input from the St. Louis Medical Community as well as our team at Mercy Hospital we are confident we will have a safe return this August. Students are already back on campus taking part in enrichment courses and summer sports camps as they prepare for the new year!

We are still accepting applications for the Fall, as well as Spring semesters. Please contact our Director of Resident Admissions with any questions or concerns:
