

# BIA is Opening in August!

## Bridgeport International

Dear Agents,

As you probably know SEVIS announced strict guidelines regarding schools that move entirely to on-line course instruction. Here at BIA we are planning in-person classes starting on August 19 as planned. This means current new BIA students are not in jeopardy of losing their F-1 visa status.

Please let me point out that if you have any students studying in a USA high school or even first year college students whose schools are going fully online, BIA is in a position to help those students retain their F-1 visa status by transferring to our school. For high school students the transfer process is quite simple; for 1st year college students they can join our new post-graduate program.

BIA is always ready to serve and support you as an agent and of course your students and their families.

Warm Regards,

Dr. Frank LaGrotteria
